What is Relay For Life?

Relay For Life is an overnight event that brings our community together to help support the American Cancer Society and its lifesaving mission to eliminate cancer as a major health problem. The Society works hard every day to prevent cancer and save lives by supporting groundbreaking research, affecting public policies that protect us from cancer, and educating people on how to prevent or detect cancer early. The Society helps people with cancer right here in our own community. And our efforts at Relay For Life can help the American Cancer Society to keep working toward a cancer-free future. This year's relay is March 31 - June 1 at Central Park.

Thank you for your support!
